WP1.1

RENAISSANCE
- ZARAGOZA -
SPAIN

Energy Policy, Planning, Research and Dev.

- ▶ Two main actions developed at Ayto. de ZAR.
 - ▶ Final approval of local municipal law regulating the efficiency of buildings in two levels:
 - **Urban planning:** Set of recommendations on orientation of streets, heights, distance between blocks... and requiring the submission of a paper on the energy analysis done on planning justification on why there has been no recommendation
 - **Refurbishment:** Local municipal law intended to facilitate the legalization process of rehabilitation from the urban standpoint
 - ▶ Two other motions have been approved:
 - One concerning galleries
 - A second one to introduce certifications and efficiency studies in City Hall's buildings

RENAISSANCE es un proyecto del programa CONCERTO co-financiado por la Comisión Europea dentro del Sexto Programa Marco

✚ Energy Policy, Planning, Research and Dev.

➡ Future developments

▶ 12 months scenario:

- Perform the appropriate steps that the **state government** take similar actions in its regulations
- Creating a management entity between Renaissance partners (EVZ+UdZ) to collaborate with the **regional government** in the process of certification.

▶ 18 months scenario:

- Following the launch of a program of regular meetings with the **Spanish CONCERTO communities** : transfer of appropriate recommendations to regional and state authorities

✚ Some final considerations

- ➡ Although the WP 1.1 was defined as completed in this 4th year, we should assume the possibility of new actions under CONCERTO and CONCERTO PLUS
- ➡ Another option would be to integrate these actions in 1.2 (?)
